PROFESSIONAL PROFILE

Full-Stack Developer based in Panama with 4+ years of experience and 10+ delivered projects across SaaS, POS, AI, and web. Specialized in TypeScript, React, Next.js, and Node.js with scalable architecture: from the frontend (UI/UX, performance, accessibility) to robust backend infrastructure (Supabase, PostgreSQL, REST APIs). I build modern products with clean, efficient, and maintainable code. Available for remote work and open to employment or contract roles where I can contribute end-to-end technical execution and drive team growth.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, HTML/CSS
- **Frontend:** React, Next.js (SSR/SSG), Tailwind CSS, Framer Motion, UI/UX, responsive design, accessibility (WCAG)
- **Backend:** Node.js, NestJS, REST APIs, authentication, scalable architecture
- **Databases:** PostgreSQL, Supabase — normalized schemas, query optimization, indexing, migrations
- **AI, Payments & Integrations:** AI/RAG integration (OpenAI), Stripe, n8n, Make
- **AI & Productivity Tools:** Claude Code / Cursor, Google Workspace
- **DevOps & Deployment:** Vercel, Docker, CI/CD, Git, automated testing, monitoring
- **Cloud:** AWS — EC2, S3, RDS, IAM (fundamentals; AWS Cloud Practitioner in progress)

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer — bytelabs. <i>Panama • Clients across Latin America (remote)</i>	<i>2023 – Present</i>
• End-to-end development of web applications and SaaS products for clients in Panama and the region: 10+ delivered projects (SaaS, POS, AI, and web) over 4+ years. • Modern frontend with React, Next.js, TypeScript, and Tailwind CSS (SSR/SSG, performance, UI/UX, and accessibility), and scalable backend with Node.js, REST APIs, and authentication. • Design and management of PostgreSQL/Supabase databases (schemas, query optimization, indexing, and migrations), with continuous deployment on Vercel and Docker. • AI integrations (RAG with OpenAI) and payments (Stripe), automations with n8n/Make, and local electronic invoicing (DGI) and payment integrations (Yappy). • End-to-end project lifecycle management with clients: discovery, design, development, deployment, and post-launch optimization.	
Technical Support Representative — Foundever <i>Panama • Remote</i>	<i>Aug. 2025 – Present</i>
Team Manager — Alorica <i>Panama • Hybrid</i>	<i>Jun. 2023 – Aug. 2025</i>
Assistant Manager — Mail Boxes Etc. Centroamérica <i>Panama</i>	<i>Feb. 2021 – Dec. 2022</i>

FEATURED PROJECTS

- **SwiftPOS** — SaaS • Point of Sale (in production): cloud-based point of sale and inventory for retail and restaurants, with AI-assisted sales analytics.
- **BoxExpress** — SaaS • Logistics (in production): operating system for couriers and P.O. Box companies: tracking, WhatsApp notifications, and profitability dashboard.
- **Atlas Copilot** — AI • Enterprise RAG (in production): private ChatGPT for companies; upload documents and chat with an AI trained on company-specific knowledge.
- **Client Landing Pages** — Web (in production): premium high-conversion websites for aesthetic clinics, law firms, and professional photographers.

EDUCATION & CERTIFICATIONS

Systems Engineering	— Universidad Interamericana de Panamá	2023 - Present
AWS Cloud Practitioner (CLF-C02)	— Coursera	In Progress - 2026
Cloud fundamentals and AWS global infrastructure; compute (EC2, Auto Scaling, Elastic Load Balancing); storage and databases (S3, EBS, RDS); security and shared responsibility model.		
Python for Data Science, AI & Development	— IBM	Mar. 2026
Google AI Specialization	— Google	Mar. 2026
AI for Data Analysis	— Google	Mar. 2026

LANGUAGES

- Spanish — Native
- English — Advanced (fluent technical reading)
