PROFILE

Full-stack developer in Panama who builds and ships complete products: point-of-sale systems for restaurants and retail, a logistics SaaS for couriers, and a RAG-based AI assistant. I own the whole cycle, from data model and API to UI and deploy, with TypeScript, React, Next.js, Node.js and PostgreSQL. Open to remote employment or contract roles.

EXPERIENCE

Founder & Full-Stack Developer — bytelabs. *2023 – Present*

Panama · Clients across Latin America (remote)

- Delivered 10+ projects for clients in Panama and Latin America (SaaS, POS, AI and web), owning discovery, design, development, deployment and post-launch support.
- Integrated local payments (Yappy) and DGI electronic invoicing, plus Stripe, WhatsApp notifications via Twilio, and n8n/Make automations.
- Model and run PostgreSQL/Supabase databases (Row Level Security, Edge Functions, indexing, migrations) with continuous deployment on Vercel and Docker.
